### WANT APPARATUS NOT GOLF COURSE

Studebaker Civic Club Committees Hold Proposed Links at Park Not Popular.

That the people of the Studebaker school district want playground apparatus instead of a golf course, the suggestion of the city park board, was the sentiment repeatedly expressed at the meeting of the program, promotion, music and athletic committees of the Studebaker Civic club, held Monday night at the school.

It was emphasized at the meeting that the nine-hole golf course proposed by the park board for Studebaker park would be used by only a small percentage of the population of the school district, while a playground would be enjoyed by everyone. At present, the Studebaker park is the only public park in the city that has no playground apparatus of any kind.

The first meeting of the club will be held Friday night, Oct. 8. A discussion of the subject "Golf Links vs. Playgrounds," will feature the meeting.

The club will be unusually active this winter. The Campfire Girls and boy scouts will be organized at Friday night's meeting, and athletic teams will also be organized for the purpose of playing volleyball, basketball and indoor baseball at the school this winter.

## AMERICANS ARE KILLED IN BATTLE

Contingent of Foreign Legion is Shot to Pieces in Fighting in Champagne.

PARIS, Oct. 5.—The American contingent in the foreign legion, according to reports which reached Paris today has been shot to pieces in the fighting in Champagne.

Casey, the reporter-artist from New York who abandoned the Latin quarter to shoulder a rifle, Bob Scanlon, the negro pugilist, Lieut. Sweeney, who has seen service in West Point; Fred Zinn of Battle Creek, Mich., and Frederick Cadeville, who have been wounded in engagements, are among the missing and are believed to have been killed.

D. W. Thorin of South Dakota, who suffered severe injuries in the head and back, and Charles Trinkard of New York, in whose right shoulder two bullets lodged, are among those whose names are on the wounded list. These are the reports which have arrived at the places in Paris where Americans gather. With them comes the tale of the heroism of Dr. David Wheeler, the Boston surgeon who quit the comparatively safe ranks of the ambulance corps because he could not find enough excitement in the work he was doing.

The story of the physician's bravery in caring for the wounded stands out as one of the most human stories of the entire war.

Suffering intense pain, Dr. Wheeler crept along the battlefield, refusing the protection afforded him, that he might minister to the needs of the men in the trenches groaning from their injuries.

How many he temporarily put out of agony nobody knows, but his hypodermic and the supply of morphine which he took from his kit were used on all the fallen soldiers he could find in his seven-kilometer crawl until he was picked up and carried to the rear exhausted and unable to aid others.

As he stood in the midst of the fray conversing with the captain of his company and the battalion commandant, a German bullet took the captain's life. Wheeler, too, was struck, but only wounded. He grasped his kit and finding it impossible to walk crept toward the rear on all fours.

Every few feet of his journey brought a pause to aid a dying comrade stretched upon the ground. The hypodermic and the morphine were brought into action long enough to bring temporary relief and on Wheeler plodded. This pace, interrupted by frequent stops, kept up until he was found exhausted and carried back.

## YOUR SICK CHILD IS CONSTIPATED! LOOK AT TONGUE

If cross, feverish or bilious give "California Syrup of Figs."

No matter what ails your child, a gentle, thorough laxative should always be the first treatment given.

If your little one is out-of-sorts, half-sick, isn't resting, eating and acting naturally—look, Mother! see if tongue is coated. This is a sure sign that it's little stomach, liver and bowels are clogged with waste. When cross, irritable, feverish, stomach sour, breath bad or has stomach-ache, diarrhoea, sore throat, full of cold, give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated poison, undigested food and sour bile gently moves out of its little bowels without grating, and you have a well, playful child again.

Mothers can rest easy after giving this harmless "fruit laxative," because it never fails to cleanse the little one's liver and bowels and sweeten the stomach, and they deeply love its pleasant taste. Full directions for babies, children of all ages and for grown-ups printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then see that it is made by the "California Fig Syrup Company."
